

## **SETTLEMENTONE PARTNERS WITH NEW CENTURY IN NEW PHASE OF GROWTH**

San Diego, CA, March 1, 2007 – The new partnership between SettlementOne and New Century creates new advantages for the lender and their brokers. SettlementOne customers benefit by the streamlined ability to re-issue credit reports, shared access to greater numbers of loan programs and the AUS/LOS technology.

“Our development team has been working diligently for months with New Century trying to perfect the seamless transition for our partners and are ecstatic with the end results,” said SettlementOne Vice President of Sales, Joseph Allison.

For Lenders like New Century, the integration with SettlementOne brings maximum connectivity for partners and affiliates, while reducing the infrastructure. Our credit customers when using a credit report from SettlementOne, can re-issue through New Century seamlessly, explained Allison, “without the added cost or the potential adverse effects of re-pulling the borrower’s credit.”

Having increased their lender relationships by tenfold in the last year SettlementOne continues to expand the benefits and partnerships for lenders.

SettlementOne, the leader in providing premier settlement services to the mortgage and lending industry, supplies over 10 million credit reports per year to its clients nationwide. With a portfolio including Flood Certification, AVM, Appraisal, Title and closing, SettlementOne provides a one stop solution for all settlement services. Based in San Diego, CA, SettlementOne has branches nationwide helping to continually expand our affiliate, partner and customer base. For more information, visit <http://settlementone.com/>
